The Bulletin will give these prizes for 500-word stories about Abraham Lincoln, "the great emancipator," written by pupils of achools in its field of circulation. These stories are not to be compilations from biographies, but original conceptions of the personal qualities which made Lincoln the greatest American of his generation and the best loved president of the United States. tism and Kidney Trouble.

"The people here do not drink enough water to keep healthy," exclaimed a well-known authority. The numerous cases of icidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected.

Stop loading your system with medicines and cure-alls; but get on the water wagon. If you are really sick, why, of course, take the proper medicines—plain, common vegetable treatment, which will not shatter the nerves or ruin the stomach.

To cure Rheumatism you must make the kidneys do their work; they are the filters of the blood. They must be made to strain out of the blood the water meater and actids that cause rhumatism; the urine must be neutralized so if will no longer be a source of irritation to the bladder, and most of all, you must keep these actids from forming in the stomach. This is the cause of stomach trouble and apoor digestion. For these conditions you can do no better than take the following prescription: Fund Extract Dandellon, one-haif ounce, Compound Kargon, one ounce; Compound Syrup shall, compound conditions and the detime, but don't forget the water. Drink plenty and often.
